WHO AM I

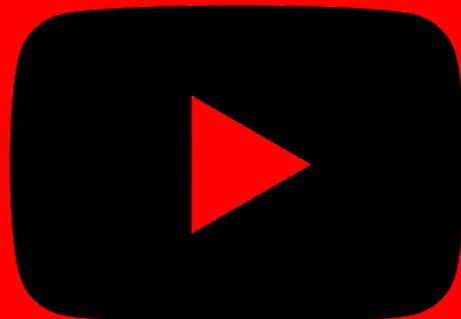

Ab The Audicrat is a producer from Albany, NY, with over 25 years of experience creating hip-hop that stays true to the roots of the culture. Renowned for his rich, layered production and hard-hitting drums, he's built a reputation for delivering beats that speak to the essence of real hip-hop.

His sound is a testament to his respect for the craft, while also carving out his own lane in the underground scene. Whether it's collaborating with MCs or working on solo projects, his dedication to the music shines through in every track, blending classic techniques with fresh ideas to keep the sound alive and evolving.

For Ab, it's not just about making beats—it's about creating something timeless, something that feels as authentic as the culture itself.
